PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in software development, 3D graphics, and interactive web applications. Skilled in React, JavaScript, Three.js and Java. Committed to building modern applications, developing scalable software solutions, and continuously expanding technical expertise.

EDUCATION

• **Integrated Master's Degree in Computer Science and Engineering** Sep 2017 – Present
University of Ioannina Expected Sep 2026

EXPERIENCE

• **Ontovisual** Ioannina, Greece
3D Graphic Developer & Front-End Engineer Jul 2023 – Jul 2024

- Developed and maintained interactive 3D and visualization projects.
- Built software solutions combining graphics and programming.
- Collaborated with designers and stakeholders to deliver production-ready applications.
- Participated in design, implementation and testing activities.

PROJECTS

• **National Theatre Costume Gallery** Jul 2023 – Apr 2024
3D Web Application Developer @ Ontovisual

- Developed and maintained a production-ready virtual museum platform for the National Theatre of Greece.
- Engineered interactive 3D experiences using React, Three.js, and React Three Fiber.
- Implemented real-time rendering and navigation systems for web-based cultural heritage visualization.
- Solved performance and rendering challenges in complex 3D scenes while maintaining responsiveness and usability.
- Worked closely with a four-member team and project stakeholders to translate requirements into technical solutions.
- Client: National Theatre of Greece **Project Link** **GitHub**

Technologies: React, Three.js, React Three Fiber, JavaScript, Strapi, Postman, Ai tools

• **Internal Communication & Management Portal** Nov 2025 – May 2026
Full-Stack Web Developer

- Developed a full-stack internal communication and management portal for military service operations.
- Implemented real-time messaging and notification features using Socket.io.
- Designed a centralized platform that streamlined communication, resource management, and information access.
- Built responsive user interfaces with React and integrated backend services using Node.js.
- Improved workflow efficiency by consolidating multiple operational processes into a single application.
- Client: Hellenic Army (Military Service Project) **GitHub**

Technologies: React, Node.js, Socket.io, JavaScript, Ai tools

TECHNICAL SKILLS

Operating Systems: Windows, Linux (Ubuntu)
Programming Languages: Python, Java, JavaScript, C , C++
Technologies: React, Three.js, React Three Fiber, CSS
Tools: Visual Studio Code, Eclipse, Unity
Core Competencies: Problem Solving, Analytical Thinking, Team Collaboration, Ability to take on multiple tasks

CERTIFICATIONS

- CompTIA Security+ (SY0-701) Preparation Course – In Progress
- Three.js and TypeScript (Udemy Course)
- React - The Complete Guide (Udemy Course)
- Three.js Journey by Bruno Simon

LANGUAGES

- Strong verbal and written communication skills in both Greek and English
- Greek: Native
- English: B2 (University of Michigan)
